

usLuminaire™
expect brilliance

It's time to expect
more from lighting
than just light.

Agriculture Catalog

SLIM SHOEBOX POLE LIGHT
USL-SB1B

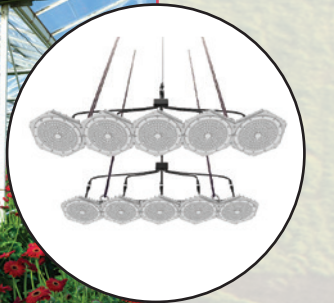

Provides lighting for driveways and roads

TRI-PROOF STRIP LIGHT
USL-TRI2E

Ideal in humid areas where dust and bugs may be present

GRODISK FLOWERING LIGHT
USL-GLDIS

Supplements natural daylight to extend growing hours

ROUND COMPACT HIGH BAY
USL-HB21D

Ideal for high ceilings like large barns or storage

GROLINEAR VEGETATIVE LIGHT
USL-GLLIS

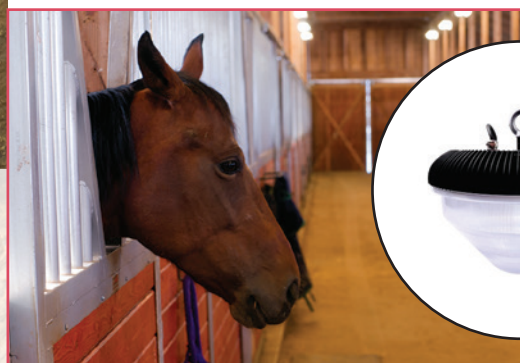

Allows multi-level growing areas without any natural sunlight

DUSK TO DAWN BARN LIGHT
USL-D2D2N

Photocell insures that barn light will be on only when needed

LOW BAY
USL-LB1B

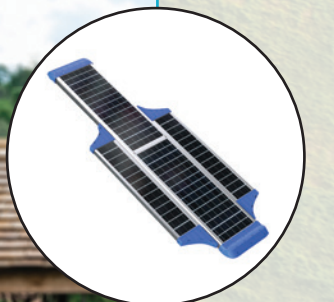

Ideal for lower ceilings in large barns or storage

ROTATABLE WALL PACK
USL-RWP1G

Attaches to sides of out-buildings

SOLAR POLE LIGHT
USL-S1A2H

Ideal for areas where light is needed, but it's not easy to get electricity

Interior

ROUND COMPACT HIGH BAY

- LEDs are circularly arranged in symmetrical form to evenly distribute light and heat
- Compact and easy to transport and install
- Hook suspension, wall or ceiling installation
- Available in 60-240W and variety of color temperatures
- Dimming, occupancy sensor and emergency power optional
- UL listed
- IP65 rated to resist dust and water intrusion

LOW BAY

- Die-cast aluminum body has integrated heat sink for thermal management
- Hook or junction box mounting
- Occupancy sensor and dimming optional
- UL and DLC listed
- IP65 rated to resist dust and water intrusion

TRI-PROOF STRIP LIGHT

- Water-proof, dust-proof and pressure-proof for humid environments
- Up to 600W can be connected together
- 30-90W in variety of color temperatures
- UL, ETL, and DLC listed
- IP66 rated to resist dust and water intrusion

GRODISK™ FLOWERING LIGHT

- 10 modules can be configured in a variety of shapes
- Built-in heat sink eliminates need for fans
- Efficacy: 2.3 umol/j
- Average PPF: 900 umol/m²/S
- 600W for 10 modules
- ETL listed
- IP66 rated to resist dust and water intrusion

GROLINEAR™ VEGETATIVE LIGHT

- 8 modules can be configured in a variety of shapes
- Built-in heat sink eliminates need for fans
- Efficacy: 2.1 umol/j
- Average PPF: 500 umol/m²/S
- 400W for 8 modules
- ETL listed
- IP66 rated to resist dust and water intrusion

Exterior

SOLAR POLE LIGHT

- Monocrystalline silicon solar panel and lithium-ion battery
- 9-10 hour charge time lasts 4-5 nights
- 10 lighting modes
- 20-80W in 6000K
- IP65 rated to resist dust and water intrusion

SLIM SHOEBOX POLE LIGHT

- High efficiency LED driver and high lumen efficiency
- Optional photocell
- Available in 60-300W and a variety of color temperatures
- Arm, slip fitter or trunion mount
- UL and DLC listed
- IP65 rated to resist dust and water intrusion

DUSK TO DAWN BARN LIGHT

- Suitable for security, barn and walkway lighting
- Photocell for dusk to dawn control
- DC option for solar applications
- Available in 20 - 70W in 3000K or 5000K
- ETL listed
- UL and DLC listed
- IP65 rated to resist dust and water intrusion

ROTATABLE WALL PACK

- Rotating design allows user to direct the light
- 60W-120W have two separate segments to independently move the light
- UL and DLC listed
- IP65 rated to resist dust and water intrusion
